

SUREBOND SA CAP SHEET

Description

SureBond SA Cap Sheet is an SBS modified bitumen, high performance membrane with a stabilised polyester reinforcement. The upper surface is finished with a mineral surface and the lower surface comprises a special self-adhesive compound and silicon peel-off film for ease of application. The SureBond SA System comprises the Cap Sheet and self-adhesive Underlays and a Vapour Barrier.

Application

SureBond SA Cap Sheet is used as part of a multi-layer self-adhesive roofing system in both new build and renovation projects. It can also be used in conjunction with other SureBond top layers and/or underlays where flame-free detailing is required. Bonding of overlaps is achieved with the aid of hot-air welding equipment.

Benefits

- ✔ Specially developed for projects where naked flames are banned or limited in use
- ✔ The SBS/special self-adhesive compound provides considerable advantages in terms of cold flexibility and high adhesion
- ✔ The nonwoven stabilised polyester reinforcement provides excellent mechanical strength, tear and puncture resistance
- ✔ When installed on stable substrates and regularly maintained, the system will have a life in excess of 25 years
- ✔ Manufactured in accordance with ISO 9001:2015
- ✔ A variety of mineral surface colours are available including black, green and Olivine
- ✔ Fully compatible and interchangeable with other SureBond Cap Sheets, Underlays and Vapour Barriers
- ✔ Achieves a fire rating classification of BROOF(t4) and can be adapted to meet the requirements of any specific country

SUREBOND SA CAP SHEET

TECHNICAL DATA				
	Unit	SA Cap Sheet	SA Underlay	SA Vapour Barrier
Thickness	mm	4,2	2,5	2
Width	m	1	1	1
Length	m	7,5	15	15
Weight	kg/m ²	5,2	2,5	2,5
Roll Weight	kg	39	37,5	37,5
Tensile Strength L/T	N/5cm	750/550	500/350	350/180
Elongation L/T	%	40/40	40/40	15/15
Tear Resistance L/T	N	150/150	150/150	100/100
Dimensional Stability L/T	%	-0,25/+0,15	-0,25/+0,15	-0,25/+0,15
Cold Flexibility	°C	-25	-20	-20
Flow Resistance	°C	100	100	100
Rolls per Pallet		25	25	25

*All data subject to normal tolerances

Special Conditions

1. Self-adhesive membranes are subject to specific storage and application instructions. Further details are available from our technical department.
2. In normal circumstances, PIR insulation panels are recommended in multi-layer roofing systems.
